OVERVIEW

The Ada County Capital Investment Plan (CIP) is prepared each year to promote good stewardship of the funding entrusted to the Offices, Departments and Enterprises that make up Ada County Government. Developing the CIP enables coordinated planning, prioritization and selection of the capital projects that will be undertaken and receive funding. The CIP also provides an opportunity to communicate identified capital needs that have not been funded or committed, but are vital to the operation of County Government.

Capital projects are separated in the CIP into the following three category sections:

Capital Projects: Committed

Non-General Fund Projects

Capital Projects: Identified Needs

A table at the beginning of each section identifies the complete list of the individual projects that are in the respective category and is followed by brief descriptions of the individual projects. While projects in the “Capital Projects-Committed” Section have been provided funding for FY17, the funding amounts identified for future fiscal years are provided for informational purposes only and additional funding may not be approved in the future.

Dispatch Center Building

DEPARTMENT/OFFICE: Sheriff's Office
 PROJECT SPONSOR: Ben Ealey
 FUNDING STATUS: Committed
 PROJECT DESCRIPTION:

The current 911 Dispatch Center is located in a facility that is too small to accommodate current operations and that relies on building systems that are outdated. Much of the backup power equipment is very close to being at maximum capacity and is not cost effective to replace.

A new 25,500 square-foot 911 Dispatch / Emergency Communications Center building is currently under construction in Meridian on property owned by Ada County near the existing Weed, Pest and Mosquito Abatement Office. Most of the work on the exterior of the building is finished and construction is anticipated to be complete in early 2017.

Jail Security System - Phase I

DEPARTMENT/OFFICE: Sheriff's Office
 PROJECT SPONSOR: Kelsey Proctor
 FUNDING STATUS: Committed
 PROJECT DESCRIPTION:

This project will upgrade the jail security system required to protect the inmates and staff of the Ada County jail which is comprised of door controls, and analog software. The system is at the end of its life and needs to be replaced. Without the security system in place, the Jail would need to bring in multiple deputies, with overtime pay, to open doors and secure the perimeter. Hardware is no longer manufactured to support the current system. Replacing this system is critical to the safety and security of the inmates and staff of the Ada County Jail. Purchasing a new system will save taxpayers money in the long-run. Three (3) months of overtime pay is estimated to cost \$600,000.

Facilities Master Plan

DEPARTMENT/OFFICE: Operations

PROJECT SPONSOR: Scott Williams

FUNDING STATUS: Committed

PROJECT DESCRIPTION: The last master plan for the location and development of County facilities was developed in association with the planning for the Ada County Courthouse Corridor in 1999. Without an updated or current master plan, departments and offices are left without guidance on the appropriate direction for the development of future County Facilities or for the retention of existing facilities. This project will provide a new master plan for County facilities in an effort to prudently guide the investment of public funding for large scale County developments.

The Transformation Board recommended this project in lieu of the following projects:

Jail Security System – Phase 2

DEPARTMENT/OFFICE: Sheriff's Office

PROJECT SPONSOR: Kelsey Proctor

FUNDING STATUS: Committed

PROJECT DESCRIPTION: This project represents the 2nd Phase of the Jail Security System Upgrade Project. If funded, ageing cameras, inadequate video storage, and outdated computer equipment will be replaced in the second phase to establish fully integrated video and door systems. The new system will provide adequate video storage, will enable the consistent capture of video data, and will support the addition of cameras in the future.

Greenbelt Pathway - Penitentiary Canal Segment

DEPARTMENT/OFFICE: Parks & Waterways

PROJECT SPONSOR: Scott Koberg

FUNDING STATUS: Committed

PROJECT DESCRIPTION: The current 1.3 mile segment of greenbelt pathway between Shakespeare Way and Diversion Dam is over 30 years old and in a state of extensive disrepair (i.e. narrow, cracking, eroding, sloughing, etc.) making it generally unsafe and unenjoyable for recreational users and commuters. This project will pipe the Penitentiary Canal and install a new, wider and safer greenbelt pathway.

ECM – IT, AC Media Replacement

DEPARTMENT/OFFICE: Information Technology (Enterprise)

PROJECT SPONSOR: Sally Myers

FUNDING STATUS: Committed

PROJECT DESCRIPTION: Numerous in-house computer programs rely on software to store documents that has not been maintained by the vendor. This project will enable the Information Technology Department to continue the progression of the County’s Enterprise-wide content management (ECM) system, by commencing the transition of in-house applications from the custom AC Media document repository to the more robust ECM solution, OnBase.

DEPARTMENT/OFFICE: Information Technology / Auditor

PROJECT SPONSOR: Stephen O’Meara

FUNDING STATUS: Committed

PROJECT DESCRIPTION: An outside audit revealed the need to make several security upgrades to protect and secure the integrity of the data associated with the County’s financial system. This project will provide a security system to better control physical access to the Information Technology (IT) Department, will implement security training for IT Personnel, and will supply security audit software.

ECM – IT, Development Services, DAPS Replacement

DEPARTMENT/OFFICE: Information Technology / Development Services

PROJECT SPONSOR: Megan Leatherman

FUNDING STATUS: Committed

PROJECT DESCRIPTION: The software program that the Development Services Department uses to conduct business is outdated, failing to meet current and future needs, and the Information Technology Department employee who designed and maintained the system for the last 10 years resigned his position. The Department is also in need of implementing electronic application submission, visual management, geographic information system integration, and an updated document management system. This project will take advantage of the capabilities of OnBase, the Enterprise Content Management System the County has already purchased, to replace the current software system, and to address the additional identified needs.

Greenbelt Pathway - Warm Springs Mesa Segment

DEPARTMENT/OFFICE: Parks & Waterways

PROJECT SPONSOR: Scott Koberg

FUNDING STATUS: Committed

PROJECT DESCRIPTION: The 1.14 mile segment of greenbelt pathway on the north side of the Boise River between Warm Springs Golf Course and E. Park Center Bridge is over 30 years old and in a state of disrepair (i.e. narrow, cracking, eroding, etc.) and has 95 transverse cracks, with half of these cracks being wider than 4 inches. The pathway is not enjoyable for cyclists (road cyclists with narrow tires in particular) and many choose the relatively unsafe option to instead ride on the shoulder of Warm Spring Blvd. The pathway is nearly impassable for roller bladers and skateboarders and averages only 9 ½ feet in width compared to the pathway on either end of this segment (City of Boise) which averages 11 feet in width. It is not only a bottleneck but it’s also a poor surface with very narrow sight lines. If funded, this project will replace the old pathway with a new and wider pathway.

Hidden Hollow Gas Control Expansion

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

PROJECT DESCRIPTION: This project entails the installation of approximately 60 vertical landfill gas extraction collectors once the final cover on the Hidden Hollow Landfill is put in place. The installation will aid the County’s efforts to comply with regulatory requirements for landfill gas control and to comply with the County’s Clean Air Permit.

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

Infrastructure Upgrade – Recycling Building

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

PROJECT DESCRIPTION: The efficient recycling of e-waste, wood waste, metal, plastics, batteries, tires, and other commodities are year-round operations. Current operations require that the material is moved to multiple locations for processing, storage, and shipping that greatly add to the cost of recycling. Most of the work is performed outside, exposed to the elements, and with little or no site lighting. This project will address the identified issues by enabling the construction of a modest recycling facility at the Ada County Landfill.

North Ravine Cell Landfill Expansion – Stage 3

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

PROJECT DESCRIPTION: To ensure the landfill maintains sufficient space, it is necessary to enter the expansion process at least 3 years ahead of the actual need. To avoid running out of landfill space before the next area is ready, the Landfill tries to maintain a minimum of 2-years of capacity. This project will fund the design and construction of a new expansion area.

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

PROJECT DESCRIPTION: The filter media in the County’s hydrogen sulfide removal system at the Landfill is due for replacement. Half of the media was changed at the beginning of 2016, and the remaining filter media will be replaced in 9-12 months depending on the flow of landfill gas through the collection system.

Z-Wall Landfill Customer Drop-off

DEPARTMENT/OFFICE: Solid Waste Management

PROJECT SPONSOR: Ted Hutchinson

FUNDING STATUS: Enterprise Funded

PROJECT DESCRIPTION: Non-commercial customers dropping off waste at the landfill currently unload at the active burial location where the large trash trucks tip their waste into the landfill. This project seeks to provide a safer and a more convenient location where the casual landfill user could deposit waste that would later be transferred to the active burial location.

East Boise Paramedic Station

DEPARTMENT/OFFICE: Paramedics
PROJECT SPONSOR: Darby Weston
FUNDING STATUS: Enterprise Funded
PROJECT DESCRIPTION: Growth and

population demographics influence the need for adding resources to the 911 system. Growth in East Boise and the type of construction (assisted living facilities, nursing homes, etc.) will dictate a change in the number of responses to the area and response times to these locations will be evaluated to determine adequate coverage. This project will enable the Paramedics Department to construct the new East Boise Station to address demand in the area. The most suitable site will be selected using call volume and response performance data.

Extension / EMS Parking Asphalt / Drainage Replacement

DEPARTMENT/OFFICE: Operations

PROJECT SPONSOR: Scott Williams

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: Ageing asphalt and poor drainage has led to severe pot holes, cracking, and ponding issues in the parking lots at the Ada County Extension Services office and the Glenwood EMS Station. The facilities currently share driveways and parking lots that need to be re-graded and new asphalt applied. A new drainage system must also be installed. If funded, this project will replace the parking lot and drainage system.

Hearing Room/Courtroom(s) Audio Visual Upgrades

DEPARTMENT/OFFICE: Information Technology / Operations

PROJECT SPONSOR: Stephen O'Meara & Scott Williams

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: Aging audio and visual equipment installed in the Courthouse no longer satisfies current needs. Presentation devices such as laptops, tablets, etc., use a higher resolution (HDMI) making current systems (VGA) inadequate. Inconsistencies in video displays and control devices throughout the Courthouse have a direct impact on clerks and attorneys when media or evidence presentations are needed in courtrooms. If funded, this project will enable the audio and visual equipment to be replaced and upgraded in select hearing / meeting rooms in the Courthouse.

Storage Analytics/ Troubleshooting Software

DEPARTMENT/OFFICE: Information Technology (Enterprise)

PROJECT SPONSOR: Kent Herr

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: The Information Technology Department does not have the ability to visually assess the status of the County's Storage Area Networks (SAN) making it difficult to determine which system or device is affecting the overall health of memory storage, and to determine what may be causing system wide slowdowns. If funded, this project will enable the installation of an agnostic software application that will enable IT employees to calculate metrics, to run reports for baseline activity, and to quickly resolve issues by providing a means to drill down into County systems and identify problem areas.

Video Infrastructure Redundancy

DEPARTMENT/OFFICE: Information Technology (Enterprise)

PROJECT SPONSOR: Stephen O’Meara

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: The ever growing demand to use video to conduct court hearings, to hold pre-trial conferences, and for the delivery of testimony by outside counsel, requires the infrastructure that process such video to be increasingly redundant. Without redundancy the amount video can be used will be limited, and the likelihood of encountering problems remains moderate. If funded, this project will add the redundant infrastructure hardware, additional infrastructure software applications, and the necessary licensing that will allow for greater video use and for a decrease in the likelihood of experiencing issues.

DEPARTMENT/OFFICE: Clerk, Auditor, Recorder's Office / Information Technology

PROJECT SPONSOR: Chris Rich & Stephen O'Meara

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: The County's time & attendance and payroll software is written in an antiquated computer language, and within five years or less, the County will not have programmers / analysts to support it. The software also is not able to fully function and connect with other County programs as needed. If funded, this project will allow the County to hire a consultant to assist with the determination of the best method to replace the software, and if an in-house design is not determined to be the best solution, the project will include funding for the installation and purchase of the necessary licensing for a third party solution.

Courtroom Addition

DEPARTMENT/OFFICE: Trial Court Administration

PROJECT SPONSOR: Larry Reiner

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: The number of judges at the Ada County Courthouse is outgrowing the availability of jury courtrooms to meet the court's needs. The Ada County Courthouse opened in 2002 with 24 judges and 24 jury and non-jury courtrooms. Since 2002, four additional judges have been added to increase the total to 27 judges, yet the number of courtrooms has increased by only one, to 25. If funded, this project will provide a courtroom with 12-person jury box and chairs; counsel tables and chairs; computer monitors for counsel tables and individual jurors; chambers for two judges and adjoining suite for judge support staff.

Estate Storage Facility

DEPARTMENT/OFFICE: Treasurer’s Office

PROJECT SPONSOR: Vicky McIntyre

FUNDING STATUS: Not Committed/Unfunded

PROJECT DESCRIPTION: The Ada County Treasurer’s

Office has the responsibility to oversee the preservation, collection, transport, storage, inventory and liquidation of a deceased person’s assets when a person passes away within the County and there are no heirs or other designated representative to probate the estate. All of the space available to the Office to fulfill this responsibility is presently occupied with assets, and there is no more room for any additional assets. The current location is inadequate and inaccessible at the times needed (after hours, during lunch hours, weekends, etc.) There is also no location currently available, designated or designed for use by the Public Administrator for asset liquidation. Assets currently have to be moved from the storage location to a temporary auction site, relying heavily on staff labor and time. If funded, this project will provide new space for asset storage and an area with adequate space for asset liquidation.
